Recommendation - Erb's Technology, Cedar Rapids, Iowa (includes OS install & setup)  
Freight costs are not included.

CB white glove OS install & setup includes the following:

*The device required for install will be unboxed*

*The device will be thoroughly inspected for physical damage or blemishes*

*Any defective components will be replaced from inventory*

*The system will be updated to the newest Chrome OS stable-channel release version available to the device at time of configuration*

*The device will be enrolled to the customer's domain by performing enterprise enrollment and validation*

*The device will be verified that the Wi-Fi network device policy was fetched (Google Chrome OS installed and enrolled)*

*All configurations undergo a comprehensive Quality Control process*

*The successfully configured device will be re-boxed for shipment*
