

March 6, 2018

Dear Cedar Falls School District Board of Directors,

My name is Christian Frazier and I am writing to request early graduation from the Cedar Falls Community School District. I expect to meet Cedar Falls High School graduation requirements during the month of March. I began the 2017-2018 school year with one goal in mind - graduating as a high school Junior in the Spring of 2018.

Graduating from Cedar Falls High School during my junior year would surprise many of my former teachers. As a student at Peet Junior High, I was often in trouble. During my freshman year, there was no doubt in my mind that I would drop out. I'm not proud of my actions then, but am very happy at how I was able to turn my life around. I have had an eventful high school experience - full of ups and downs, but am excited to have met graduation requirements and have a plan for my future. I plan to earn a degree from Des Moines Area Community College in Diesel Technology. I have spent the last 2 years in the Alternative Program, so finding a school that is able to develop my interest in diesel engines is important. I appreciate your consideration and taking time to read this.

Sincerely,

Christian Frazier
