Commercial Workers Compensation Insurance

Types of Coverage :

Workers Compensation - Coverage mandated by the State of Iowa and is only available to active school employees. The District has developed a designated physician program with Wheaton Franciscan Healthcare/Arrowhead Medical Clinic for all employees who are injured while performing their job. The designated physical program treats employee injuries and provides detail follow up of any treatment plan. The District continues to educate staff about workplace safety and continue to review and repair facilities in order to promote a safe work environment. Workers Compensation premium costs are driven from a formula directly tied to claims experience. An experience modification of 1.00 is average. A higher number reflects a larger than average number of claims conversely a smaller number would reflect a better than average claim experience.
