The Board of Education seeks to maintain the highest possible credit ratings for all categories of short- and long-term debt that can be achieved without compromising the delivery of services and the achievement of adopted objectives. The Board recognizes that external economic, natural, or other events may from time to time affect the creditworthiness of its debt. Nevertheless, the Board is committed to ensuring that actions within their control are prudent.

Debt Limits

For general obligation debt, the school district's outstanding debt limit shall be no more than five percent (5%) of the actual value of property within the school district's boundaries, as prescribed the Iowa constitution and statutory restrictions.

For revenue debt, the school district's goal is to provide adequate debt service coverage of at least 1.20 times the annual debt service payments.

In accordance with Iowa law, the school district may not act as a conduit issuer or issue municipal securities to raise capital for revenue-generating projects where the funds generated are used by a third party ("conduit borrower") to make payments to investors.

PURPOSES AND USES OF DEBT**Capital Planning**

To enhance creditworthiness and prudent financial management, the school district is committed to systematic capital planning, intergovernmental cooperation and coordination and long-term financial planning.

Capital Financing

The school district may issue long-term debt for capital projects as authorized by Iowa law, which include, but are not limited to, the costs of planning, design, land acquisition, buildings, permanent structures, attached fixtures or equipment, and movable pieces of equipment. Capitalized interest may be included in sizing any capital project debt issue. The types of debt instruments to be used by the school district include:

- General Obligation Bonds
- General Obligation Capital Loan Notes
- Bond Anticipation Notes
- Revenue Anticipation Notes
- School Infrastructure Sales, Services and Use Tax Revenue Bonds
- Lease Purchase Agreements, including Certificates of Participation

Working Capital Financing

The school district may issue debt for working capital for operations after cash flow analysis has determined that there is a mismatch between available cash and cash outflows. The school district shall strive to repay working capital debt by the end of the fiscal year in which the debt was incurred. A Working Capital Reserve may be included in sizing any working capital debt issue.

Refundings

Periodic reviews of all outstanding debt will be undertaken to determine if refunding opportunities exist. Refunding will be considered (within federal tax law restraints) if and when there is a net economic benefit of the refunding or if the refunding is otherwise in the best interests of the school district, such as to release restrictive bond covenants which affect the operations and management of the school district.

In general, advance refundings for economic savings will be undertaken when a net present value savings exceeds three percent of the refunded debt can be achieved. Current refundings, which produce a new present value savings of less than three percent will be considered on a case by case basis taking into consideration bond covenants and general conditions. Refundings with negative savings will not be considered unless there is a compelling objective for doing so.

DEBT STANDARDS AND STRUCTURE

Length of Debt

Debt will be structured for the shortest period consistent with a fair allocation of costs to current and future beneficiaries or users. Long-term debt will not be issued for periods exceeding the useful life or average useful lives of the project or projects to be financed. All debt issued will adhere to state and federal law regarding the length of time the debt may be outstanding.

Debt Structure

Debt will be structured to achieve the lowest possible net cost to the school district given market conditions, the urgency of the capital project, the type of debt being issued, and the nature and type of repayment source. To the extent possible, the school district will design the repayment of its overall debt to rapidly recapture its credit capacity for future use.

Generally, the school district will only issue fixed-rate debt. In very limited circumstances, the school district may issue variable rate debt, consistent with the limitations of Iowa law and upon a finding of the board that the use of fixed rate debt is not in the best interest of the school district and a statement of the reasons for the use of variable rate debt.

All debt may be structured using discount, par or premium coupons, and as serial or term bonds or notes, or any combination thereof, consistent with Iowa law. The school district should utilize the coupon structure that produces the lowest True Interest Cost (TIC) and meeting their financial ability of debt payment, taking into consideration the call option value of any callable maturities.

In a revenue debt, the school district will strive to structure their debt in sinking fund installments for each debt issue that achieves, as nearly as practicable, level debt service within an issue or overall debt service within a particular classification of debt.

Derivatives (including, but not limited to, interest rate swaps, caps, collars, corridors, ceiling and floor agreements, forward agreements, float agreements, or other similar financing arrangements), zero-coupon or capital appreciation bonds are not allowed to be issued consistent with State or Federal law.

Decision Analysis to Issue Debt

Whenever the Board of Education is contemplating the issuance of debt, information will be developed concerning the following four categories commonly used by rating agencies assessing the school district's credit worthiness.

Debt Analysis – Debt capacity analysis; purpose for which debt is proposed to be issued; debt structure; debt burden; debt history and trends; and adequacy of debt and capital planning.

Financial Analysis – Stability, diversity, and growth rates of tax or other revenue sources; trend in assessed valuation and collections; current budget trends; appraisal of past revenue and expenditure trends; history and long-term trends of revenues and expenditures; evidences of financial planning; adherence to GAAP; audit results; fund balance status and trends in operating and debt funds; financial monitoring systems and capabilities; and cash flow projections

Governmental and Administrative Analysis – Government organization structure; location of financial responsibilities and degree of control; adequacy of basic service provision; intergovernmental cooperation/conflict and extent of duplication; and overall planning efforts.

Economic Analysis – Geographic and location advantages; population and demographic characteristics; wealth indicators; types of employment, industry and occupation; housing characteristics; new construction; evidences of industrial decline; and trend of the economy.

DEBT ISSUANCE

Credit Enhancement

Credit enhancements (i.e., bond insurance, etc.) may be used, but only when the net debt service on the debt is reduced by more than the costs of the credit enhancement.

Costs and Fees

All costs and fees related to issuing the debt may be paid out of debt proceeds and allocated across all projects receiving proceeds of the debt issue.

Method of Sale

Generally, the District will strive to sell all debt a competitive bidding process. Bids will be awarded on the lowest TIC basis providing other bidding requirements are satisfied.

The school district may sell debt using a negotiated process in extraordinary circumstances when the complexity of the issue requires specialized expertise, when the negotiated sale would result in substantial savings in time or money, or when market conditions of school district credit are unusually volatile or uncertain.

Professional Service Providers

The school district will retain external bond counsel for all debt issues. All debt issued by the school district will include a written opinion by bond counsel affirming that the school district is authorized to issue the debt, stating that the school district has met all Iowa constitutional and statutory requirements necessary for issuance and determining the debt's federal income tax status. The bond counsel retained must have comprehensive municipal debt experience and a thorough understanding of Iowa and federal tax law as it relates to the issuance of the particular debt.

The school district will retain an independent financial advisor. The financial advisor will be responsible for structuring and preparing all offering documents for each debt issue. The financial advisor retained will have comprehensive municipal debt experience, experience with diverse financial structuring and pricing of municipal securities.

The treasurer shall have the authority to periodically select other service providers (e.g., escrow agents, verification agents, trustees, arbitrage consultants, rebate specialist, etc.) as necessary to meet legal requirements and minimize net debt costs. These services can include debt restructuring services and security or escrow purchases.

Compensation for bond counsel, financial advisor and other service providers will be as economical as possible and consistent with industry standards for the desired qualification levels.

DEBT MANAGEMENT

Investment of Debt Proceeds

The school district shall invest all proceeds received from the issuance of debt separate from the school district's consolidated cash pool unless otherwise specified by the authorizing bond resolution or trust indenture. Investments will be consistent with those authorized by Iowa law and the school district's Investment Policy to maintain safety of principal and liquidity of the funds.

Arbitrage and Record Keeping Compliance

The Chief Financial Officer, **or designee**, shall maintain a system of record keeping, reporting and compliance procedures with respect to all federal tax requirements which are currently, or may become applicable, through the lifetime of all tax-exempt or tax credit bonds.

Federal tax compliance, record-keeping reporting and compliance procedures shall include, but not be limited to:

- 1) Post-issuance compliance procedures (including proper use of proceeds, timely expenditure of proceeds, proper use of bond financed property, yield restriction and rebate, and timely return filing);
- 2) proper maintenance of records to support federal tax compliance;
- 3) investments and arbitrage compliance;
- 4) investments and arbitrage compliance;
- 5) private business use; and
- 6) designation of primary responsibilities for federal tax compliance of all bond financings.

Financial Disclosure

The school district is committed to full and complete financial disclosure, and to cooperating fully with rating agencies, institutional and individual investors, other levels of government, and the general public to share comprehensible and accurate financial information. The school district is dedicated to meeting secondary disclosure requirements on a timely and comprehensive basis, as promulgated by the Securities and Exchange Commission.

The Official Statements accompanying debt issues, Annual Audits, and Continuing Disclosure statements will meet the standards articulated by the Municipal Securities Rulemaking Board (MSRB), through the Electronic Municipal Market Access (EMMA) system, the Government Accounting Standards Board (GASB), the Securities and Exchange Commission (SEC), Generally Accepted Accounting Principles (GAAP) and the Internal Revenue Service (IRS). The treasurer shall be responsible for ongoing debt disclosure as required by any Continuing Disclosure Certificate for any debt issue and for maintain compliance with disclosure standards promulgated by state and federal regulatory bodies.

Section 2.01. Review and Approval of Official Statements. Whenever the District issues Securities, an Official Statement may be prepared. Each of these Official Statements contains information relating to the District's finances. The Disclosure Coordinator (with advice from Bond Counsel, any retained Disclosure Counsel, and/or Financial Advisor) shall have primary responsibility for ensuring that all such information is accurate and not misleading in any material aspect. The Official Statement may also include a certification that the information contained in the Official Statement regarding the District, as of the date of each Official Statement, does not contain any untrue statement of material fact or omit to state any material fact necessary to make the information contained in the Official Statement, in light of the circumstances under which it was provided, not misleading. When undertaking review of a final or preliminary Official Statement, the Disclosure Coordinator shall:

- (A) review the Official Statement to ensure: (i) that there are no material misstatements or omissions of material information in any sections, (ii) that the information relating to the District that is included in the Official Statement is accurate, and (iii) that when necessary the information relating to the District has been reviewed by a knowledgeable Employee or other appropriate person;
- (B) draft, or cause to be drafted, for the Official Statement descriptions of (i) any material current, pending or threatened litigation, (ii) any material settlements or court orders and (iii) any other legal issues that are material information for purposes of the Official Statement; and

- (C) report any significant disclosure issues and concerns to the Board of Directors (with advice, as necessary, from Bond Counsel, retained Disclosure Counsel, if any, and/or Financial Advisor).

Section 2.02. Submission of Official Statements to Board of Directors for Approval. The Disclosure Coordinator shall submit all Official Statements to the Board of Directors for review and approval. The Board of Directors shall undertake such review it deems necessary. This may include consultation with the Disclosure Coordinator, Bond Counsel, retained Disclosure Counsel, if any, and/or the Financial Advisor to fulfill the District's responsibilities under applicable federal and state securities laws.

Article III ***Annual Report Filings***

Section 3.01. Overview. Under the Disclosure Agreements the District has entered into in connection with certain of its Securities, the District is required each year to file Annual Reports with the Electronic Municipal Market Access (EMMA) system. Such Annual Reports are generally required to include: (1) certain updated financial and operating information as outlined in each Disclosure Agreement, and (2) the District's audited financial statements. The documents, reports and notices required to be submitted to the MSRB pursuant to this Policy shall be submitted through EMMA in one or more electronic document format files as required by the Rule at the time of filing, and shall be accompanied by identifying information, in the manner prescribed by the MSRB, or in such other manner as is consistent with the Rule. To facilitate the District's Disclosure Agreements the Disclosure Coordinator shall:

- (A) maintain a record of all Disclosure Agreements of the District using a chart which shall identify and docket all deadlines;
- (B) schedule email reminders on the EMMA website for each issue of Securities to help ensure timely filing of financial disclosures;
- (C) ensure that preparation of the Annual Reports commences as required under each specific Disclosure Agreement; and
- (D) comply with the District's obligation to file Annual Reports by submitting or causing the required (i) annual financial information and operating data and (ii) audited financial statements to be submitted to the MSRB through EMMA.
 - (i) In the event audited financial statements are not available by the filing deadline imposed by the Disclosure Agreement, the

Disclosure Coordinator shall instead timely submit or cause to be submitted unaudited financial statements, with a notice to the effect that the unaudited financial statements are being provided pending the completion of audited financial statements and that the audited financial statements will be submitted to EMMA when they have been prepared. In the event neither audited nor unaudited financial statements are timely posted, the District shall cause to be filed a "failure to file notice" in accordance with the Rule. The failure to file notice for audited financial statements shall include information describing the nature and/or cause of the failure to meet the contractual deadline and, if available, an approximate timeframe for when the completed audited financial statement is expected to be submitted. Audited financial statements shall be filed as soon as available. If updated financial and operating information is not posted by the filing deadline, the Disclosure Coordinator shall cause a "failure to file notice" to be posted to EMMA in accordance with the Rule.

- (ii) All documents submitted to the MSRB through EMMA that are identified by specific reference to documents already available to the public on the MSRB's Internet website or filed with the SEC shall be clearly identified by cross reference.

Article IV ***Listed Event Filings***

Section 4.01. Disclosure of Listed Events. The District is obligated to disclose to the MSRB notice of certain specified events with respect to the Securities (a "Listed Event"). Employees shall be instructed to notify the Disclosure Coordinator upon becoming aware of any of the Listed Events in the District's Disclosure Agreements. The Disclosure Coordinator may consult with Bond Counsel, retained Disclosure Counsel, if any, or the Financial Advisor, to determine if an occurrence is a Listed Event, and whether a filing is required or is otherwise desirable. If such a filing is deemed necessary, the Disclosure Coordinator shall cause a notice of the Listed Event (a "Listed Event Notice") that complies with the Rule to be prepared, and the Disclosure Coordinator shall cause to be filed the Listed Event Notice as required by the Rule as follows:

- (A) Prior to issuance of new Securities after February 27, 2019, a complete list of current Financial Obligations shall be compiled and submitted to the

Disclosure Coordinator for continuous monitoring regarding compliance with all Disclosure Agreements entered on or after February 27, 2019.

- (B) The Disclosure Coordinator shall:
 - (i) monitor and periodically review the Listed Events identified on Exhibit A, in connection with the Disclosure Agreements identified on the chart in Exhibit B to determine whether any event has occurred that may require a filing with EMMA. To the extent Disclosure Coordinator determines notice for an event is not required based on the event not achieving a level of materiality, Disclosure Coordinator shall document the basis for the determination.
 - (ii) In a timely manner, not in excess of ten (10) business days after the occurrence of the Listed Event, file a Listed Event Notice for Securities to which the Listed Event applies.
- (C) For Securities to which the Listed Event or Events are applicable, the Listed Event Notice shall be filed in a timely manner not in excess of ten (10) business days after the occurrence of the Listed Event.
- (D) The Disclosure Coordinator shall monitor Securities data on EMMA regarding rating agency reports for rated Securities and may subscribe to any available ratings agency alert service regarding the ratings of any Securities.

Article V

Each Transcript shall include final versions of documents submitted to the MSRB through EMMA, and any documentation related to determinations of materiality (or immateriality) of Listed Events. Whenever the District makes statements or releases information relating to its finances to the public that is reasonably expected to reach investors and the trading markets (including, without limitation, all Listed Event Notices, statements in the annual financial reports, and other financial reports and statements of the District), the District is obligated to ensure that such statements and information are accurate and complete in all material aspects. The Disclosure Coordinator shall assist the Board of Directors, the Superintendent, and District's Attorneys in ensuring that such statements and information are accurate and not misleading in any material aspect. Employees shall, to the extent possible, coordinate statements or releases as outlined above with the Disclosure Coordinator. Suggested Practices in Submitting Annual Financial Information to EMMA*

Annual Financial Information is to be submitted to EMMA as follows:

- through the EMMA Dataport;
- in one or more electronic word-searchable portable document format files configured to permit documents to be saved, viewed, printed and retransmitted by electronic means (“properly formatted pdf file”); and
- indexed by the submitter as “Annual Financial Information and Operating Data” – this EMMA indexing category should be used for all submissions consisting of one or both parts of an annual financial information submission. A submission should be indexed in EMMA by the submitter as “Annual Financial Information and Operating Data” if it consists of complete annual financial information (including audited financial statements and/or the CAFR).

If the audited financial statements have not been prepared in time to meet the deadline:

- file unaudited financial statements with a notice to the effect that the unaudited financial statements are being provided pending completion of audited financial statements and that the audited financial statements will be submitted to EMMA when they have been prepared.

If annual financial information is provided by reference to other submitted documents file:

- a notice that includes specific reference to a document available on the EMMA website or the SEC (such as, but not limited to, an official statement), to the extent that such document in fact includes the information required to be included in the annual financial information; and
- the submitter should confirm that such document in fact is available from the EMMA website or the SEC and should include in such notice (A) a textual description of the document that includes the required information, with sufficient detail for a reasonable person to determine the precise document being referenced, and (B) an active hyperlink to the pdf file of such document as then posted on the EMMA website or to the SEC’s EDGAR system; further, if such document includes audited financial statements, the submitter should also index such submission as “Audited Financial Statements or CAFR” in addition to (but not instead of) “Annual Financial Information and Operating Data” unless the submitter submits such audited financial statements separately to EMMA.

Failure to file notices are to be submitted to EMMA as follows:
