

Policy Title:

*Distribution of Literature*

Code No. *1001.2*

Materials submitted by outside organizations (parent-teacher associations are considered school agencies) are not to be distributed to the pupils or sent to the homes unless authorization has been granted by the superintendent or his/her designee and appropriate arrangements have been made to have the materials prepared and delivered to that school. Such a request would only be approved when it is for the best interests of the pupils and school and not a commercial venture.
