

Policy Title:

Global Education

Code No. *602.18*

Global education is the lifelong growth in understanding, through study and participation, of the world community and the interdependency of its people and systems — social, cultural, racial, economic, linguistic, technological, and ecological. Global education will be incorporated into the education program so students will have the opportunity to acquire a perspective on world issues, problems, and prospects for an awareness of the relationship between an individual's self-interest and the concerns of people elsewhere in the world.
