LEADERS

High School Donor Wall Levels

Hall of Fame \$400,000+

All Star \$200,000+

Champion \$100,000+

MVP \$75,000+

Captain \$50,000+

First Team \$25,000+

Tiger Pride \$10,000+

Loyalty \$5,000+

Varsity Club \$1,000+

Tiger Performance Center

The design of the new high school integrates planning for a future indoor fieldhouse, to be called the Tiger Performance Center. It will be a multipurpose community space that supports academic and wellness activities. An artificial turf field, running track and multipurpose flooring allows those needing space for training during transitional weather months. The multipurpose flooring accommodates tennis, basketball, volleyball, batting cages and golf nets for a variety of events and activities. The location will capitalize on adjacent support spaces, storage and training rooms in the main building and stadium to provide easy access to coaches, staff and students. This space also provides much needed indoor space for student clubs and organizations like robotics and to be used as an extension of the classroom for daily use. The design intent is for this building to be a focal point for ALL district activities to expand the potential of the district as an integral part of the community and region.

Tiger Performance Center Building

(1 available) \$750,000

Tiger Performance Center Indoor Turf

(1 available) \$100,000

Tiger Performance Center Indoor Basketball

Courts (1 available) \$100,000

Pool

The natatorium will be built at the new Cedar Falls High School to be located at 27th and Hudson Road, with a planned opening in 2024. This project is a collaborative effort between the Cedar Falls Community School District, the City of Cedar Falls, as well as the recreational and competitive swim community represented by an organization known as "Jump In," comprised of over 500 community members who support and advocate for building a new indoor swimming pool facility. Upon building the new aquatics center, the two existing pools at Peet Junior High and Holmes Junior high will repurposed for needed classroom space. According to a survey conducted by the City of Cedar Falls in 2019, community members voted a pool as the #1 item they wanted for the city.

Highlights of the natatorium include two pools, a thoughtful and unique design allowing for multipurpose use. One pool will be a 10 lane, 25 yard by 25 meter deep water competition pool; the other separate pool will be a 4 lane, shallower, 25 yard pool for teaching and therapeutic use. The two pools will have independent temperature controls, allowing the smaller pool to maintain a warmer temperature than that of the competition pool. The warmer temperature is much more conducive to special needs programming, senior programming as well as swim programming for certain elementary students and toddlers. The facility also includes an office, lifeguard meeting and/or training room, spectator seating for 500, men's and women's and family locker rooms, and a 1-meter diving board as well as a 3-meter diving platform. The facility will enable Cedar Falls to host larger events they previously had not been able to, including conference and regional meets. Parking and an entrance separate from the high school will allow the community to utilize the pool during school hours for activities such as lap swim, aquarobics and other programming.

Pool Donor Wall Levels
Founder \$200,000+
Gold Medalist \$100,000+
