

Mr Wedgbury,

I am formally requesting permission to graduate from Cedar Falls High School after the fall semester of my Junior year. I will have completed all high school graduation requirements prior to the end of the semester.

I am currently enrolled in college full time at the University of Iowa in Iowa City as a freshman. I am taking 20 credits and am double majoring in Anthropology and History and will be obtaining a certificate in Museum Studies. I was able to enroll in college prior to standard high school graduation through the Bucksbaum Early Entrance Program. This dual-enrollment has allowed me to get a head start on my college education, and since I am living in the dorms and I will have completed all my graduation requirements, there is not any reason for me to remain a student at the high school. Additionally, graduating will allow me access to scholarships that I am not eligible for until I have my high school diploma.

Thank you for the support that you have given me in this process.

Sincerely,  
Keiran Reynolds
